Manufacturers in Fifth Ave nue Zone Readily Agree to Move Elsewhere.

SOME AT A SACRIFICI

Only Eight Firms So Far Approached Refuse to Vacate Premises.

Between the new building regulation which permit the erection of no more factories in the Fifth avenue retail zone JEWS PLAN UNION and the voluntary removal of manufac turers now located there the Save New York Committee is confident that within two years the city's most valuable and most desirable retail district will be entirely free from the factory blight which until recently threatened to destroy values and drive the high class shops out of the vicinity.

The committee reported yesterday that of a total of 200 manufacturers in the remove their factories out of the zone or or before the expiration of their leases. Only eight have declined to remove.

The district for which the committee is working is that bounded by a line midway between Thirty-second and Thirtythird streets on the south, Third avenue on the east, Seventh avenue on the west and Fifty-ninth street on the north. They manufacturers of clothing, cloaks, suits, tured by men. They express no opposi-tion to light manufacturing by women of articles which will be sold on the premises. Since the movement to "Save New York" started in February no manufacturer of the undestrable class has signed a lease in this zone nor has any building been erected for such manu-

that 95 per cent of the manufacturers in the district will remove when their leases expire. To some of them removal means considerable loss, for they have spent from \$2.500 to \$20,000 in fittings and decorations for their establishments.
